SITUATION SUMMARY

Cement Spill, Rockridge, Oakland, Alameda County

- On 04/08/15, a cellular cement spill occurred in the Rockridge neighborhood of Oakland. The release made its way into Glen Echo Creek, and has hardened to concrete.
- The spill occurred when crews working for East Bay Municipal Water District (EBMWD) were sealing an old water line from the 1930's, and the pipeline and valve were left open spilling 170 cubic yards into the creek. The valve leads into a storm drain that led into the creek. Glen Echo Creek runs through a golf course approximately half a mile, then goes underground. There are no fish in the creek. Two birds were found dead, but there were no additional impacts to wildlife. The water continues to flow down-stream, and aside from higher than normal PH levels, the water is not detrimental to wildlife. The creek ultimately flows into Lake Merritt. There is no impact to drinking water.
- State and local officials are still investigating how the valve got left open. Cal OES Coastal Region Staff established contact with a State Fish and Wildlife Warden, who reported that the spill occurred in a rural area of Oakland/Berkeley near the Claremont Hotel. When the spill occurred, EBMWD and the contractor on scene immediately initiated clean-up by vacuuming the cement to mitigate the spill. Crews remain on scene and are actively removing as much cement as possible.
- A State Fish and Wildlife Warden and Biologist are on scene and Fish and Wildlife will develop an IAP to reflect steps moving forward. A Damage Assessment Team will respond within the next few days to determine the extent of damage, costs associated and future actions. Once the responsible party has retrieved most of the cement, assessments will be made to either remove the remainder of hardened cement and restore the creek back to normal, or leave the cement in place and divert the water around it.
- A Hazardous Materials Spill Report was received by the California State Warning Center (CSWC) on 04/08/15 (SPILL: 15-1951) and notifications were made per the Hazardous Materials SOP which included Fish and Wildlife, EPA, Alameda Environmental Health, as well as several other Agencies.
- Cal OES Coastal Region continues to monitor the situation.

Significant Activity – Cal OES Telecommunications

- Auxiliary Communications Service (ACS) personnel demonstrated Mobile Interoperability Gateway Unit (MIGU)-4 at the California Mobile Command Center Rally as part of the Association of Public Safety Communications Officials Western Region Conference in Sacramento, Sacramento County on 4/9/15.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure over the region will bring dry weather to northwest California today, but a weak front will bring light rain mainly to areas north of Cape Mendocino early Saturday morning. Another period of light rain will be possible late Monday through Tuesday.

Medford Weather:

Today will be sunny with highs in the mid-50s to mid-60s with southwest winds 10 to 15 mph. Tonight will be mostly cloudy with a slight chance of rain after midnight and lows in the mid-30s to lower 40s and southwest winds 10 to 15 mph.

Reno Weather:

High pressure over Northeast California and Western Nevada will bring above average temperatures through Monday. Winds will increase Monday and Tuesday, as a strong cold front moves through the region. It will be colder on Tuesday with a chance for showers, mainly north of interstate 80.

San Francisco Weather:

High pressure over California will lead to slightly warmer temperatures along with dry weather through the weekend. A low pressure trough approaching the coast early next week could spread rain chances across far Northern California on Tuesday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Dry and warm weather the rest of the week except for a weak system bringing some showers to the northern mountains on Saturday. Another system will bring a chance of mainly mountain precipitation Monday night and Tuesday. Dry weather expected for the second half of next week. Daytime temperatures above normal except near normal on Tuesday.

Hanford Weather:

Post frontal cumulus over the valley and foothills today with cooler than normal temperatures. A ridge of high pressure will build over the district this week and bring dry weather with a day to day warming trend through the weekend.

Southern California:

Los Angeles Weather:

Increasing onshore flow will cool Friday a few degrees then ounce back to around normal for the weekend. After a quick cool down on Tuesday another high pressure and light offshore breezes are expected to warm temperatures to above normal for the rest of the week.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

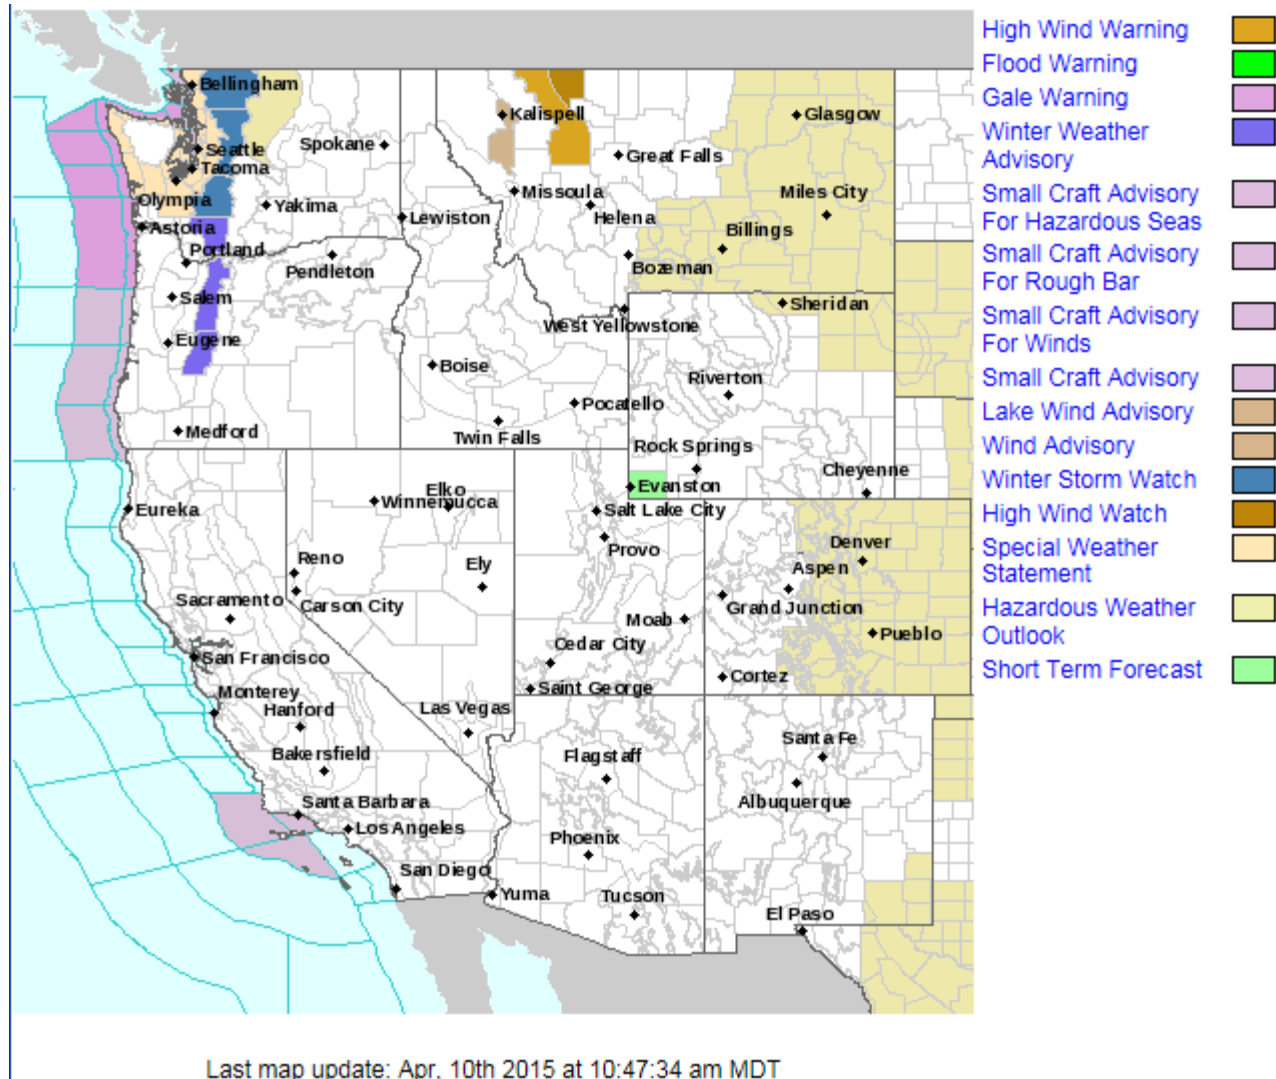

It will be warm and dry this weekend as a trough of low pressure passes by to the south of the border and weak high pressure builds in over southern California. Breezy and cooler early next week with a series of low pressures troughs moving across the Great Basin. Gusty west winds are likely over the mountains and deserts strongest should be on Tuesday. A deep marine layer will spread into the coastal areas and western valleys. Warmer Wednesday through Friday under strengthening high pressure aloft and offshore flow.

Southeast California Weather:

A slow warming trend will commence today through Saturday as high pressure ridging gradually rebuilds over the desert southwest. Another area of low pressure will move into the area with the potential for another period of slightly cooler and unsettled weather before warmer temperatures and mainly clear skies return to the region early next week.

RECOVERY ACTIVITIES

Round Fire, Mono County

- Site sampling and hazardous materials recovery of the affected properties began 03/14/15. Cal Recycle began debris removal operations 03/23/15.

Project Totals as Day 11:

38	Homeowners who registered for the removal project.
3	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
12	Debris removal completed.
9/0	Confirmation sampling completed/approved.
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Project Total Tonnage for the Project as of Day 11:

Category	Total Tons
Debris and Ash Disposed	1,339
Soil Disposed	1,539
Metals Recycled	630
Concrete Recycled	1,313
Total All Categories	4,821

Estimated Daily Tonnage:

Category	Day 11
Debris/Ash	140
Soil Disposed	149
Metal Recycled	18
Concrete Recycled	72
Total	379

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued an Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 54 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 24 Counties: El Dorado, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 9 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Montague (Siskiyou County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), and City of West Sacramento (Yolo County), and City of Willits (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
